

Electrify Your Ride with 3CE Rebates

Apply anytime between now and September 30, 2025

Electrify Your Fleet - Easier, and More Affordable

The Central Coast Community Energy (3CE) Commercial EV Charging Rebate Program helps businesses, nonprofits, agricultural entities, and public agencies significantly reduce the cost of electrifying their fleets. Rebates cover new and used electric vehicle purchases, EV charging hardware, DC fast charger installations, and essential infrastructure upgrades.

TurnOnGreen provides a complete EV charging solution— From planning and consultation to hardware, software, and full installation support, we ensure a seamless experience so you can maximize your rebate, minimize costs, and enhance your sustainability efforts.
