

3CE Electrify Your Ride Incentive FAQs

Who is eligible for the 3CE rebate program?

Eligible entities include businesses, commercial property owners, agricultural entities, nonprofits, public agencies, municipalities, and multifamily property owners within the 3CE service area.

What types of vehicles qualify?

New battery electric vehicles (up to \$2,000 per vehicle), used EVs from 2016 or newer (\$1,000 per vehicle), and electric motorcycles (\$1,000 each).

What EV chargers qualify for rebates?

Level 2 chargers (up to 75% of equipment costs or \$3,000 per charger, \$10,000 max per multifamily site) and DC fast chargers (up to 50% of project cost, maximum \$100,000).

Does the rebate cover installation and electrical upgrades?

Yes, electrical infrastructure upgrades necessary for EV readiness qualify—up to \$8,000 per commercial site and \$20,000 per multifamily property.

How do I apply for rebates?

Submit an online application through the 3CE rebate portal. You'll need proof of purchase, installation receipts, permits, and vehicle registration information.

What's the deadline to apply?

Rebates are available for eligible purchases and installations made between now and September 30, 2025.

How soon will I receive my rebate?

Typically, rebates are processed within 4-6 weeks after submitting a complete application and required documentation.

Can TurnOnGreen help with my application?

Yes, TurnOnGreen offers comprehensive support—from consultation and planning to rebate applications, installation, and post-installation management.
