

# ChargeVermont Incentive FAQs

## Q1 What is ChargeVermont, and how does TurnOnGreen help?

ChargeVermont is a state-funded program that provides incentives for installing EV charging stations at workplaces, multifamily properties, and public locations. TurnOnGreen helps businesses, property owners, and municipalities navigate the program, select the right hardware, and ensure a smooth installation while maximizing available funding.

## Q2 How much funding can I receive for installing EV chargers?

ChargeVermont offers up to \$3,000 per Level 2 port (OCPP-compliant) and \$2,000 per port (non-OCPP), with up to \$100,000 per applicant. Additional funding is available for installation, make-ready work, and DC Fast Charging projects. TurnOnGreen will help you determine your eligibility and funding options.

## Q3 What types of businesses and properties qualify for ChargeVermont incentives?

ChargeVermont supports workplaces, multifamily housing, commercial properties, public locations, nonprofits, and government agencies looking to install EV charging infrastructure. Women- and minority-owned businesses may qualify for up to 100% project funding.

## Q4 Why should I choose TurnOnGreen for my EV charging project?

TurnOnGreen provides end-to-end EV charging solutions, including OCPP-compliant chargers, smart energy management, and full installation support. We help businesses and property owners maximize ChargeVermont incentives, future-proof their infrastructure, and ensure compliance with all program requirements.

## Q5 How long does the application and installation process take?

Applications for ChargeVermont are accepted until January 15, 2026, and approved projects must be installed within 12 months. TurnOnGreen assists with application submission, site planning, and project execution to keep your installation on schedule.

## Q6 How do I get started?

You can schedule a consultation with a TurnOnGreen rebate expert to review your site, discuss funding options, and begin the application process. Contact us today to take advantage of ChargeVermont's EV charging incentives!
