

ChargeVermont Workplace EV Charging Program

Apply anytime between now and January 15, 2026

Up to \$100,000 in Grants for EV Charging at Your Workplace

Vermont’s Workplace EV Charging Incentive Program makes it easy and affordable for businesses, nonprofits, and property owners to install Level 1 and Level 2 EV chargers at their workplaces. Grants cover a significant portion of costs, including hardware, installation, and make-ready upgrades.

TurnOnGreen provides a complete EV charging solution—from consultation and site planning to hardware, software, and installation support—so you can maximize your rebate and streamline the process.
